- DO NOT use the appliance for any other purpose than its intended use.
- The fan must not be used if the casing is damaged or open.

# COMPONENTS

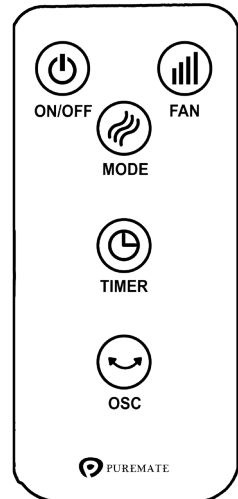

Display & Control Panel

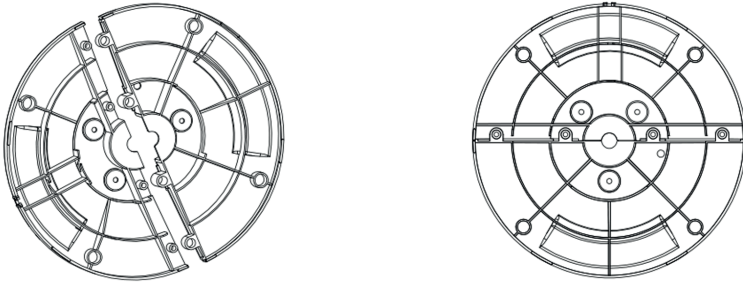

# CONTROL PANEL

# REMOTE CONTROL

# ASSEMBLY

1. Attach the two components of the base to each while pulling the cable through the middle. Then push the two parts into each other, making sure they click into place.
2. Place the base on the fan housing and gently pull the power cord through the opening of the base.
3. Attach the base to the fan housing using the screws provided and a screwdriver.
4. Finally pass the power cord on the bottom of the stand through the cable fixation and into the opening provided on the side of the base to the outside. This ensures a safe position of the fan and a strain relief to the power cord.

# **OPERATING INSTRUCTIONS**

**POWER:** Turns the tower fan ON/OFF

- POWER: Turns the tower fan ON/OFF
- Press the POWER button. The device starts operating.
- Press POWER again and the device will stop working and display the room temperature.
