We wish you many years of healthy indoor air with this efficient and effective product.

SAFETY GUIDELINES

- Always use the appliance only on the voltage specified.
- Never immerse the product or power cable with water or other liquids.
- Do not leave the appliance unattended around children.
- Do not insert any objects or fingers into any openings.
- Do not use around heated surfaces, open flames, flammable substances or in direct sunlight.
- Please ensure the dehumidifier is set to off when the unit is not in use.
- Please turn off and unplug the appliance before cleaning or maintenance.
- Do not operate if there are signs of damage to the cord, plug or appliance. Do not attempt to repair or adjust any electrical or mechanical functions on this unit.

Please Call Customer Service for assistance.

- Never tilt, move, or attempt to empty tank while it is operating. Ensure the dehumidifier is in an upright position.
- Never cover or restrict airflow to the dehumidifier whilst in use.
- Dispose of collected water, this is not suitable for drinking.
- When the appliance is not in use for a prolonged period, please turn it off, unplug it, pack it well, and store it in dry cool place. Please ensure water tank is always emptied before storing the dehumidifier.
- Do not run cord under throw rugs, runners, or similar coverings. Arrange cord away from traffic area and where it will not be tripped over.
- Do not use the appliance for any other purpose than its intended use, as described in the manual.
- This dehumidifier is for indoor use only. Do not use outdoors.
- Avoid the use of extension cables to prevent risk of overheating and fire risk.

- This dehumidifier may be utilized by children aged from 8 years and over and individuals with reduced physical, sensory or mental capabilities or lack of experience and knowledge how ever they must be supervised or instructed concerning use of the appliance in a safely manner and understand the hazards involved.
- Do not by any means attempt to accelerate the appliances defrosting process.
- Ensure to follow the cleaning process detailed by the manufacturer. Do not attempt to clean in any other way.
- Do not pierce, incinerate or cause damage to the appliances container of refrigerant tubing.
- Be aware that refrigerants may not contain any odour.
- The maximum refrigerants charge amount is 58g.
- In the rare occurrence the unit should malfunction, do not attempt any repairs. All repairs are required to be taken out by a professional.

Caution, risk of fire

Please Contact PureMate Customer Services.

CAUTION

Do not use appliance at temperatures below 5°C, to prevent the possibility of a heavy ice up of the evaporating coil!

PLACEMENT

1. Place the unit on a firm, level surface in an area with at least 30cm of free space around it to allow for proper air circulation.
2. Never install the unit where it could be subject to:
 - Heat sources such as radiators, heat registers, stoves or other products that produce heat.
 - In an area where oil or water may be splashed.
 - Direct sunlight
 - Mechanical vibration or shock
 - Excessive dust
 - Lack of ventilation, such as cabinet or bookcase
 - Uneven surface

WARNING: Install the unit in rooms which exceed 4 m².

COMPONENTS

HUMIDITY INDICATOR LIGHT

- **RED:** Humidity level is greater than 65%
- **GREEN:** Humidity level is between 45%-65%,
- **BLUE:** Humidity level is less than 45%

REMOVING AND EMPTYING THE WATER TANK

When the water tank full indicator illuminates and the dehumidifier beeps. The unit will automatically stop. Press the standby button before removing the water tank.

1. Gently pull the water tank out from the back of the dehumidifier.
2. Use the handle to lift, tilt and empty the water tank.
3. Once empty, insert the water tank into the correct position.
4. Do not discard the magnets and plastic rivets in the tank. Otherwise, the dehumidifier cannot be started, or the machine will not automatically stop working when the water tank is full, and the condensed water overflow will damage the floor of the room.

PLEASE NOTE: Your dehumidifier will not operate when the water tank is full of water or it is not set properly.

CONTINUOUS DRAINING

1. Remove water tank
2. Connect the drain hole with hose.
3. Ensure the water will always drain freely and the tube will remain in place.
4. Ensure the hose end has a suitable drainage outlet (e.g.bucket/drain)
5. Insert the water tank into the correct position.

CAUTION: DO NOT PLACE CONTINUOUS DRAINAGE HOSE OUTSIDE IN TEMPERATURES BELOW 1°C

CLEANING & MAINTENANCE

- Remove the back cover from the dehumidifier.
- Remove excess dust by patting lightly or vacuuming with the brush attachment.
- If excessively dirty, please wash with warm soapy water and rinse.
